Subject: New design Pedigree Certificates

Dear Madam, Sir,

It is with great pleasure that we inform you on the new design of the CRV Pedigree Certificates.

Enclosed you will find the digital examples of:

- the CRV Pedigree Certificate for animals originating from the Netherlands;
- the VRV Pedigree Certificate for animals originating from Flanders, Belgium.

Two different certificates, due to the fact that CRV holds recognition in the Netherlands (CR Delta) by the Dutch Authorities and in Flanders (VRV) by the Flemish Authorities.

Both certificates have been amended in line with the latest CRV Branding and in agreement with the Authorities in both countries.

The major changes include the design and text based on EU legislation.

In the content of the data per animal on the second page of the enclosures (which is not included in these examples) nothing has changed.

We will start using both certificates from next week onwards.

With kind regards,

A handwritten signature in black ink, appearing to read 'Buiting', with a long horizontal line underneath it.

Jos Buiting  
Manager CRV Herdbook
