1992	278.229	799	1.175	54	2.027

*) = number of cows with a maximum of 150 days between test day yield and sign out

**) = days between first calving date and last sampling

***) = days between birth and last culling date

(sum of days for rearing, longevity and days after last test day yield)

Table 2. productive longevity of herd-book cows per year of culling

Period 1 September 2022 - 31 August 2023

year culled	Nr. calvings	average CI *	milk days per CI	days dry per CI	milk days last lactation	milk days total	kg milk per milk day
2023	3,9	408	355	53	271	1.303	29,4
