

**WHFF 5408 Inclusivity of More Production Data Task Force
by Sartaj Sararia**

Upon reviewing the previous minutes, it's evident that there's a shared commitment to enhancing inclusivity within our data practices. I appreciate the valuable insights and perspectives that each of you has brought to the discussions so far.

As part of our ongoing efforts, I am actively working to find suitable time slots for our upcoming task force meetings. Scheduling can be a complex process, but I am committed to ensuring that we can convene at a time that accommodates everyone's availability.

Our next steps involve collaboratively defining a roadmap for our task force. This includes establishing specific goals, timelines, and action items that align with our shared objective of promoting inclusivity in the collection and utilization of production data.

I encourage each of you to share any additional thoughts, suggestions, or specific areas of focus that you believe should be addressed by the task force. Your input is crucial to shaping the direction of our efforts.

I anticipate that our initial meeting will provide us with the opportunity to delve deeper into these discussions and set a clear path forward. If there are any specific topics or questions you'd like to address during our upcoming sessions, please feel free to share them.

Thank you for your commitment to this important task force, and I look forward to our collaborative efforts to promote inclusivity within our production data practices.
